GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by a riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

- "Statements of Water Diversion and Use"
- "Information Pertaining to Water Rights in California"
- "Water Rights for Stockpounds Constructed Prior to 1969"
- "Appropriation of Water in California"

STATEMENT OF WATER DIVERSION AND USE

S 2911

This statement should be typewritten or legibly written in ink.

A. Name of person diverting water Jimmy Yamakawa
Address 300 West Watmaugh Rd. Sonoma, Calif. 95476
B. Name of body of water at point of diversion Sonoma Creek South end
Tributary to approximately one mile from salt water line
C. Place of diversion see attached property description
1/4 Section, 1/4 Township, Range, B&M,
Sonoma County, or locate it on sketch of section grid on reverse side with regard to section lines or prominent local landmarks.

D. Name of works Pump directly from creek through gravel core
E. Capacity of diversion works 250 gallons per minute
Capacity of storage reservoir None
State quantity of water used each month in gallons or acre-feet

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
:	:	:	:	:	<u>12 1/2</u>	:	<u>12 1/2</u>	:	:	<u>12 1/2</u>	:	:	<u>37 1/2</u>

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acres of each crop irrigated, average number of persons served, number of stock watered, etc.

33 acre of Prune & Pear, 17 acre of alfalfa
Maximum annual water use in recent years 37 1/2
Minimum annual water use in recent years 25
Type of diversion facility: gravity (pump) Turbine
Method of measurement: weir, flume, electric power meter, water meter, (estimate)

F. Purpose of use (what water is being used for) Fruit Farm irrigation

G. General description or location of place of use (use sketch of section grid on reverse side if you desire) see sketch at intersection of W. Watmaugh Rd & Sonoma Creek.

H. Year of first use as nearly as known 1950

I. Name of person filing statement Jimmy Yamakawa
Position _____ Organization _____
Address 300 W. Watmaugh Rd. Sonoma, Calif. 95476

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.

Date signed July 15, 1967

Signature Jimmy Yamakawa
